GSM INTERCOM SYSTEMS

- Calls directly to your cellphone or landline.
- Includes activated and RICA registered Vodacom pre-paid sim card with R5.00 pre-loaded airtime.
- Up to 10 000 programmable users.
- 2 x Relay outputs (For main and pedestrian gates).
- 2 x Digital inputs (To monitor power and gate status).
- High quality stainless steel enclosure (GRADE 316).
- Operating voltage 12/24Vdc 500mA.
- Crystal clear sound.
- Backlit keypad.
- Cloud-based access control logs.
- Restricted time-based access control.
- Effortlessly manage a large number of access control users with our online Cloud 9.0 access control platform.
- Manage one access control list for multiple linked devices.
- If someone presses the programmed intercom button assigned to you, you will receive a call on you phone. Answer, and after you identified the person simply press '1' on your phone to open Gate 1. Press '2' on your phone to open Gate 2 (if applicable). Calls from the intercom to your number is charged to the sim in the intercom at standard network rates. Maximum call duration can also be set. Pressing button '9' on your phone will also open Gate 1.
- – The message contains a unique web link that will give user specific information with a list of all the devices they are linked to, intercom buttons assigned to them and how to use them.
